SPEED LETTER		REPLY REQUESTED		DATE
		X	YES	NO
TO : Photographic Analysis Group		FROM: [Redacted]		LETTER NO. P&DS/D/ISS/66-6
ATTN: [Redacted]			P&DS/DB/ISS	
SUBJECT: [Redacted] Filar Eyepiece Related Developments				
<p>(1) Due to difficulties encountered by the Census Bureau in developing a case for the [Redacted] eyepiece set, delivery of these items from P&DS to NPIC operating divisions has been unavoidably delayed. Procurement will be made as soon as possible in view of the imminent requirement for these cases.</p> <p>(2) Reply is requested as to the total number of Dynazoom sleeve modifications required by PAG both immediately and in the foreseeable future. As previously requested, these modifications will be performed on both Dynazoom barrels so that the filar and goniometer eyepieces may be employed on either the right or left side as desired.</p>

REPLY				DATE 5 March 1966
<p>1. Case for [REDACTED] accessories: We have discussed this problem with [REDACTED] and understand the problem of contracting for the production of a limited number of specialized cases. As Paul reports, the answer may be the purchase of "general purpose" cases; then interior fittings installed by Census or others. In any event, we will appreciate continued efforts on this project as storage of the [REDACTED] device -in a safe manner- will be important to the IAD.</p> <p>2. The IAD has 20 Dynazooms in stock & 40 on order. 60 sets of [REDACTED] accessories are on order. We will, therefore, require 120 "sleeve modifications". At least 40 should be available when the [REDACTED] accessories arrive; the additional 80 will not be needed until our additional 40 Dynazooms are delivered. In our long range planning we have anticipated the purchase of an additional 140 Dynazooms during the FY-67 to FY72 period.</p>
